

# Site Access Data in Real-Time

The CloudLoq solution offers a lightweight alternative to costly and complex access control systems. You can log into your CloudLoq app on any device - anywhere, any time, and view site activity and reports in real time.

## Why Cloudloq?

At CloudLoq, we believe in the power of technology to make a real difference in people's lives. We want to help others, serve our community, and tackle complex problems that drive progress. Our mission is simple: to help businesses and individuals succeed by providing innovative, practical software solutions that solve real-world challenges.

**Data Security**

**Integration**

**Compliance**

**Real-time Updates**

# How Cloudloq can be set up for you?

We simply supply the box and you plug it in. The set up is completed remotely in just a few hours and then you can immediately deploy access control to your site or sites.

1

Discovery session, we get to know your specific context and requirements.

2

We prepare and deliver CloudLoq box for each turnstile on your site(s).

3

Install and connect the box to the turnstile.

4

We activate the system remotely and you can immediately log in and start working.

**Save your time and money with detailed real time reports on site, anomalies, AI analysis of anomalies.**
